## PROFILE

Dynamic Mobile Developer with 9 years of experience building innovative applications that boost user engagement and streamline processes. Skilled in Kotlin, Java, and Flutter, with a proven track record of delivering high-quality, user-friendly solutions — including recent banking apps that reduced transaction times and elevated customer satisfaction. Strong advocate of Agile practices, ensuring timely, high-standard deliveries. Experienced in mentoring teams and eager to contribute to a collaborative, impact-driven environment

## EMPLOYMENT HISTORY

### Mobile App Developer at Bank Mandiri, Jakarta

Jan 2024 — Present

- Built **Smart Branch app** with Kotlin, digitizing in-branch banking and replacing paper forms.
- Streamlined customer transactions and verification, improving efficiency and accuracy.
- Integrated app with core systems, supporting Mandiri's digital transformation.

### Mobile & Web Developer at Mirae Asset Sekuritas Indonesia, Jakarta

Feb 2022 — Dec 2023

- Built **secondhand e-commerce website** (Next.js, Tailwind, Symfony) with full shopping flow.
- Developed **trading hybrid app** (Flutter) featuring charts, fast transfers, OTP-secured login, and portfolio tracking.
- Delivered scalable fintech and e-commerce solutions still in active development.

### Software Development Engineer at Harian Kompas, Jakarta

Apr 2021 — Jan 2022

- Developed features for the **Kompas.id Android app** using **MVVM architecture**.
- Implemented **Google Play Billing** for subscriptions and secure **Google/Facebook sign-ins**.
- Strengthened reliability with Dependency Injection and Unit Testing.
- Helped app reach **500K+ downloads** and **#1 top-grossing in News & Magazines** on Play Store.

### Android & Backend Developer at Telkomsel, Balikpapan

Aug 2016 — Dec 2020

- Designed **MySQL databases** and developed **REST APIs** in PHP.
- Built and maintained **Android apps in Java**, covering UI, backend, and core functionality.
- Delivered full-cycle mobile solutions for internal and customer-facing use cases.

## EDUCATION

### Bachelor's Degree, STMIK Balikpapan, Balikpapan

Sep 2013 — Sep 2018

Graduated with Honors with GPA 3.86

## ★ PART-TIME/CONTRACT

### ○ Mobile Application Developer at BAPPEDA, Balikpapan

Sep 2019 — Dec 2020

#### Geotagging & Data Collection App – Balikpapan Local Government

- Developed an **Android application** to record resident data with **geotagging and photo capture** for accurate building and population mapping.
- Enhanced government efficiency in cataloging and maintaining up-to-date resident records.

#### E-Database Android Application – Balikpapan Local Government

- Built and maintained the **e-database app**, enabling near **100% population data coverage** across all sub-districts.
- Delivered significant environmental impact by reducing paper usage by **~1,750 sheets**, supporting sustainable city management.

### ○ Speaking & Mentorship Engagements, Balikpapan

Jan 2019 — Aug 2020

- **Speaker, DILO Balikpapan (Aug 2020)**  
Engaged local developer audiences with talks on the **Kotlin Programming Language**, highlighting its streamlined syntax, robust safety features, and seamless interoperability with Java.
- **Speaker, WomenDevTalk – Facebook Developer Circle (Jul 2020)**  
Delivered an **introductory Android Programming session** for beginners, simplifying complex concepts and empowering women in tech through accessible, hands-on learning.
- **Mentor, UKM Student Activity Program (Jan – Oct 2019)**  
Taught weekly sessions on **Android Native and React Native** to groups of 15–20 students, fostering hands-on learning and mentoring future developers.
